PROFILE

Final-year Informatics Engineering student with comprehensive expertise in Web Development and Data Science. Possesses a proven track record of designing scalable system architectures, building responsive web applications, and implementing machine learning algorithms to extract valuable insights from data. Adept at combining solid programming logic with sharp analytical skills to deliver intelligent, data-driven technology solutions focused on enhancing operational efficiency

EDUCATION

- | | |
|---|--------------------|
| ▪ Universitas Wijaya Kusuma Surabaya
Bachelor's Program in Informatics Engineering (Final-Year Student) | 2022 - 2026 |
| ▪ State Senior High School 1 Ngadirojo
Natural Sciences | 2019 - 2022 |

SKILLS

- | | |
|-----------------------------------|---|
| Languages | ▪ HTML, CSS, JavaScript, PHP, MySQL, Python |
| Frameworks & Libraries | ▪ Laravel, CodeIgniter, React.js, Bootstrap, Leaflet.js |
| Tools & Others | ▪ Microsoft Office, Git, Face API |

EXPERIENCE

- | | |
|--|--------------------------|
| Klinik Amrih Waras
Web Development | 02/2026 - 04/2026 |
| ▪ Developed a Clinic Management System using native PHP & MySQL with dynamic routing, successfully deployed to a live server. | |
| ▪ Built core modules for medical records, automated medicine inventory, and real-time financial reporting. | |
| ▪ Designed a fully responsive and interactive admin dashboard utilizing Chart.js, CSS animations, and SweetAlert2. | |
| TAKADOIN.AJA (Intern)
Web Development | 04/2025 - 07/2025 |
| ▪ Developed an e-commerce website for the MSME "Takadoin.Aja" utilizing HTML, CSS, JavaScript, PHP, and MySQL. | |
| ▪ Built a shopping cart feature to streamline the product ordering process for customers. | |
| ▪ Integrated a payment gateway system to ensure transactions are processed automatically and securely. | |
| ▪ Created an admin dashboard to facilitate the management of purchase and order data for store administrators. | |
| ▪ Tested transaction flows and website functionality across various devices to ensure optimal performance and responsiveness. | |
| SENIOR HIGH SCHOOL SENOPATI (Intern)
Web Development | 09/2024 - 12/2024 |
| ▪ Designed and implemented the SMA Senopati school website interface using HTML, CSS, JavaScript, PHP, and MySQL. | |
| ▪ Developed school profile, news, and activity gallery pages so information is easily accessible to students, teachers, and parents. | |
| ▪ Integrated contact/online registration forms and connected them to the school's admin email. | |
| ▪ Tested website appearance and functionality across various devices (desktop and mobile) and fixed identified bugs. | |
| ▪ Coordinated with school staff to collect content (text, photos, and documents) and uploaded it to the website regularly. | |
| ▪ Prepared brief technical documentation as a guide for website maintenance and future development. | |

ORGANIZATIONAL EXPERIENCE

Social Service Event, BEM Informatics Engineering

2024

Equipment Division

- Took full responsibility for equipment mobilization and event site setup, ensuring all supporting facilities were available according to event needs.
- Conducted site surveys and mapped logistical requirements to minimize technical issues on the event day.
- Handled loading and unloading of equipment and ensured the security of all inventory from the beginning until the event was completed.

Informatics Engineering Student Association

2022 - 2023

Expert Staff, Entrepreneur Department

- Supported the implementation of programs and activities organized by the Entrepreneur Department.
- Identified new business opportunities relevant to the field of Informatics Engineering.
- Contributed to the development of innovative ideas to support student entrepreneurship.
- Coordinated with the head of department to plan budget allocation for various activities.

Badminton Student Activity Unit

2022 - 2023

Event Division Staff

- Organized and coordinated activities and both internal and external badminton tournaments.
- Prepared event plans, including schedules, budgets, and logistics.
- Collaborated with team members to ensure smooth event execution.
- Managed event promotion and publicity to increase member participation., Entrepreneur.

CERTIFICATES & TRAINING

TRAINING :

- **Train and evaluate deep learning models** 04/2026
<https://learn.microsoft.com/en-us/users/sagitaprakosa-5574/>
- **Introduction to Responsible AI - Language Indonesia** 08/2025
Google Cloud (Coursera)
- **TOEFL** 01/2025
<https://englishdomestictoeftest.com/certificate/250171901>
- **Switch Career IT di Era Tech Winter** 07/2024
Eduwork

INTERNSHIP :

- **Practical Work Internship** 06/2025
Takadoin.AJA
- **Internship MBKM** 12/2024
SHS SENOPATI

COMPETITION EVENT:

- **Presenter - ISC "From Global Challenges Solutions : Empowering People Through Collaboration in a Transforming World"** 12/2025
UBHINUS - International Student Conference
- **Presenter - Seminar Nasional Karsa Nusantara 2025 ("Menghubungkan Inovasi , Mewujudkan Masa Depan")** 06/2025
Karsa Nusantara

ADDITIONAL INFORMATION

- **Languages:** Indonesian (Fluent) and English (Intermediate).
- **Soft Skills:** Communication, Initiative, Collaboration, Time Management, Problem-Solving, and Responsibility.
- **Hobbies:** Soccer and badminton.
