SUMMARY

Detail-oriented Software Engineer and Full Stack Web Developer with expertise in designing scalable architectures using PHP, Python, and JavaScript frameworks. Proven track record of building responsive web applications, optimizing database performance, and delivering secure, user-centric technology solutions.

EDUCATION

- **Universitas Wijaya Kusuma Surabaya | 2022 - 2026**
Bachelor's Program in Informatics Engineering | GPA: 3.58/4.00

SKILLS

- | | |
|-----------------------------------|---|
| Languages | ▪ HTML, CSS, JavaScript, PHP, Python, SQL |
| Frameworks & Libraries | ▪ Laravel, CodeIgniter, React.js, Vue.js, Bootstrap, Tailwind |
| ORDBMS/RDBMS | ▪ MySQL, PostgreSQL |
| Tools & Others | ▪ Microsoft Office, Git, Github, Google Colab |

EXPERIENCE

PT Fazana Berkah Mulia (Internship) <https://bit.ly/4qtJpFC>

Software Engineer | 11/2025 - 07/2026

- Engineered the backend system architecture using PHP and MySQL for a digital attendance application, ensuring seamless data synchronization and zero data loss during user check-ins.
- Validated and optimized the geofencing and image processing features, guaranteeing high accuracy in location-based tracking and preventing fraudulent attendance entries.

Klinik Amrih Waras (Project-Based) <https://bit.ly/4iodx35>

Software Engineer | 02/2025 - 03/2025

- Secured dynamic routing and database connectivity for a PHP-based Clinic Management System, ensuring stable pre-deployment performance on the live server.
- Optimized core operational modules (medical records and finance) to minimize logic errors, ensuring high data accuracy for daily clinic administration.
- Enhanced the admin dashboard UI/UX by implementing responsive Chart.js data visualizations, providing clear analytical insights across multiple devices.

TAKADOIN.AJA (Internship)

Software Engineer | 04/2025 - 07/2025

- Developed an end-to-end e-commerce platform for an MSME utilizing PHP and MySQL, facilitating automated and secure online transactions.
- Integrated a payment gateway and a dynamic shopping cart, reducing checkout friction and streamlining the ordering process for end-users.
- Built a comprehensive admin dashboard, significantly improving the administrator's efficiency in managing daily purchase and inventory data

SENIOR HIGH SCHOOL SENOPATI (Internship) <https://bit.ly/4hPrSWk>

Software Engineer | 09/2024 - 12/2024

- Spearheaded the digitalization of the school's information system by developing an interactive website, significantly improving information accessibility for students and parents.
- Automated the public inquiry and registration workflow by integrating online forms directly with the school's administrative email system.
- Authored comprehensive technical and testing documentation, facilitating a seamless knowledge transfer process for long-term platform maintenance.

ORGANIZATIONAL EXPERIENCE

Badminton Student Activity Unit | 2022 - 2023

Event Division Staff

- Organized and coordinated activities and both internal and external badminton tournaments.
- Prepared event plans, including schedules, budgets, and logistics.
- Collaborated with team members to ensure smooth event execution.
- Managed event promotion and publicity to increase member participation.

CERTIFICATES & TRAINING

TRAINING :

- **Fundamentals of machine learning | 02/2025**
<https://bit.ly/4xi0HbB>
- **Explore and analyze data with Python | 04/2026**
<https://bit.ly/4xi0HbB>
- **Track model training in Jupyter notebooks with Mlflow | 04/2026**
<https://bit.ly/4xi0HbB>
- **Train and evaluate deep learning models | 04/2026**
<https://bit.ly/4xi0HbB>
- **TOEFL | 01/2025**
<https://bit.ly/4c3PPWb> (TOEFL Score : 560)

COMPETITION EVENT:

- **International Data Science Challenge 2026 | 04/2026**
Universiti Putra Malaysia
- **International Student Conference | 12/2025**
UBHINUS

ADDITIONAL INFORMATION

- **Languages:** English (Intermediate)
