SUMMARY

Informatics graduate (GPA 3.58/4.00) with hands-on experience in end-to-end web application development using PHP, Laravel, JavaScript, React.js, Vue.js, and SQL databases. Skilled in building responsive frontends, backend services, and system integrations. Experienced in developing automation and data-driven dashboards that improved operational efficiency. Eager to contribute to a dynamic technology team in software engineering or web development roles.

EDUCATION

Wijaya Kusuma University Surabaya **2022 – 2026**
Bachelor's Degree in Informatics (**GPA: 3.58/4.00**)
Thesis Research:
Digital Attendance System with Location Tracking and Selfie Verification for Employee Presence Monitoring at PT Fazana Berkah Mulia

SKILLS

Programming Languages	• HTML, CSS, JavaScript, PHP, Python, SQL
Frameworks & Libraries	• Laravel, CodeIgniter, React.js, Vue.js, Bootstrap, Tailwind
Databases	• MySQL, PostgreSQL
Tools & Others	• Git, GitHub, Laragon, Vercel, Microsoft Office, VS Code

EXPERIENCE

PT Fazana Berkah Mulia (Internship) **11/2025 – 07/2026**
Software Engineer | https://bit.ly/4qtJpFC

- Identified core operational security risks and eliminated attendance fraud (proxy attendance) by developing an automated digital attendance system integrated with Face Recognition and Real-Time Geofencing.
- Mitigated Fake GPS exploits and unauthorized location spoofing by implementing an anti-spoofing mechanism, ensuring 100% data authenticity and location accuracy for site employees.
- Engineered customized business-logic features, including time-gated clock-in/out rules, dynamic lateness tracking, and an integrated leave request system.
- Automated daily and monthly attendance reporting, replacing time-consuming manual paper records with an analytical dashboard that tracks working hours, employee locations, and attendance summaries.

Klinik Amrih Waras (Project-Based) **02/2026 – 03/2026**
Software Engineer | https://bit.ly/4iodx35

- Secured dynamic routing and database connectivity for a PHP-based Clinic Management System, ensuring stable pre-deployment performance on the live server.
- Optimized core operational modules (medical records and finance) to minimize logic errors, ensuring high data accuracy for daily clinic administration.
- Enhanced the admin dashboard UI/UX by implementing responsive Chart.js data visualizations, providing clear analytical insights across multiple devices.

TAKADOIN.AJA (Internship) **04/2025 – 07/2025**
Software Engineer |

- Developed an end-to-end e-commerce platform for an MSME utilizing PHP and MySQL, facilitating automated and secure online transactions.
- Integrated a payment gateway and a dynamic shopping cart, reducing checkout friction and streamlining the ordering process for end-users.
- Built a comprehensive admin dashboard, significantly improving the administrator's efficiency in managing daily purchase and inventory data.

SENOPATI SENIOR HIGH SCHOOL (Internship) **09/2024 – 12/2024**
Software Engineer | https://bit.ly/4hPrSWk

- Identified operational inefficiencies and proposed a digital solution, transforming a manual paper-based registration into an integrated web platform.
- Developed an all-in-one company website integrated with online registration and payment gateway, simplifying enrollment for 100+ prospective students.
- Streamlined administrative tasks by building an admin dashboard with automated Excel data export, reducing data processing time by up to 70% and eliminating manual entry errors.
- Ensured seamless system handover by conducting staff onboarding and creating technical documentation, achieving 100% system adoption by the school administration.

ORGANIZATIONAL EXPERIENCE

Badminton Student Activity Unit **2022 – 2023**
Event Division Staff

- Organized and coordinated activities and both internal and external badminton tournaments.
- Prepared event plans, including schedules, budgets, and logistics.
- Collaborated with team members to ensure smooth event execution.
- Managed event promotion and publicity to increase member participation.

ACHIEVEMENTS & TRAINING

ACHIEVEMENTS:

- **International Data Science Challenge 2026** **04/2026**
  Universiti Putra Malaysia
- **International Student Conference** **12/2025**
  UBHINUS

TRAINING :

- **AI Fluency for Builders** **10/2026**
  Anthropic
- **Intro to Software Engineering** **10/2026**
  RevoU
- **Python** **10/2026**
  Kaggle
- **Intermediate Machine Learning** **10/2026**
  Kaggle
- **Machine Learning Onramp** **10/2026**
  MathWorks
- **Fundamentals of machine learning** **02/2025**
  Microsoft
- **Explore and analyze data with Python** **04/2026**
  Microsoft
- **Train and evaluate deep learning models** **04/2026**
  Microsoft
- **TOEFL** **01/2025**
  English Domestic (Score : 560)
